

End-to-End Credentialing Services That Keep Providers Enrolled, Compliant, and Ready to Bill

Provider and facility credentialing should not slow down care delivery, reimbursement, or growth. CPa Medical Billing, a GeBBS Healthcare Company, helps healthcare organizations manage the full credentialing lifecycle with accuracy, consistency, and proactive follow-up. Our team reduces administrative burden, helps avoid enrollment delays, and keeps providers ready to see patients and bill accurately.

Helping you achieve healthier
revenues for a healthier mission

Our Credentialing Services Include:

Provider/Facility Enrollment & Setup

- Initial credentialing across Medicare, Medicaid, and commercial payers
- CAQH profile creation, maintenance, and attestation
- Document collection, validation, and submission

Payer Follow-Up & Approval Acceleration

- Proactive follow-ups with payers to reduce delays
- Status tracking and issue resolution
- Expedited enrollment workflows to support faster onboarding

Recredentialing & Maintenance

- Automated renewal tracking and alerts
- Continuous monitoring to prevent participation lapses and denials
- Ongoing CAQH updates and compliance management

Centralized Management & Visibility

- Secure document storage and audit-ready records
- Real-time status updates and weekly reporting
- Provider and practice manager portal access

- ✓ **Faster Approvals**
Accelerate enrollment with complete applications, accurate submissions, and consistent payer follow-up.
- ✓ **Reduced Administrative Burden**
Minimize paperwork, portal updates, payer calls, document tracking, and renewal management
- ✓ **Improved Revenue Readiness**
Help providers and facilities begin billing sooner by reducing enrollment gaps and avoidable delays.

- ✓ **Compliance Confidence**
Maintain accurate provider, facility, payer, renewal, and documentation records.
- ✓ **Dedicated Support & One Point of Contact**
Work with credentialing specialists who manage the process from intake through approval.
- ✓ **Better Visibility**
Receive regular status updates, tracking reports, and credentialing documentation access.
