Here's What Our Customers Are Saying About CPa...

"Initially, we were only collecting 70% of our billed claims, leaving \$1.5M unclaimed. That's when we decided to outsource to CPa Medical Billing. Within 6 months, our collection efficiency soared to 98-99%. CPa secured filing waivers and recovered \$1.4M of the seemingly lost claims. We overcame personnel, training, turnover, and space issues. Billing, once a major headache, is now our least concern. In my opinion, partnering with CPa is a complete no-brainer for any health center. The positive impact they have made on our organization is immeasurable." - **Marc Bourassa, CFO, North Shore Community Health**

"CPa Medical Billing provides great service for our company. They are responsible, reliable, and strive to be a business partner to us: consistently going above and beyond in helping our strategic growth." - **Practice Manager**
